[Text on Screen: *How To Drive Out Of A Skid*]

00:00:04 - 00:00:15

[Animation: *The car struggles to move as it skids along the highway. It stops before continuing to drive. A graphic of a car skidding out appears.*]

[Text on Screen: *Skids can involve the front, rear, or all four wheels. Most skids result from driving too fast for road conditions.*]

00:00:15 - 00:00:28

[Animation: *The car continues to drive. A close up of the brakes is shown. A warning sign is placed on the brakes. The car struggles to drive properly as the brakes encounter problems. The car eventually spins out.*]

[Text on Screen: *Sudden hard braking. Going too fast on a curve. Accelerating too quickly. All can cause your vehicle to skid and even roll over.*]

00:00:28 - 00:00:38

[Animation: *The car continues to drive. It rears to the side of the road and stops until it can drive again. An image of a moving steering wheel is shown in the right corner.*]

[Text on Screen: *Once in a skid, take your foot off the brake or accelerator. Look and steer in the direction you want your car to go. Be careful not to oversteer.*]

00:00:38 - 00:00:45

[Animation: *The car continues to drive until hitting black ice. The neutral symbol and an image of brakes appear in the right corner.*]

[Text on Screen: *If you are on ice and skidding in a straight-line shift to neutral or step on the clutch.*]

00:00:45 - 00:00:54

[Animation: *A white screen with snow and text is shown.*]

[Text on Screen: *Slow Down. Be careful when you brake, change lanes or make turns. Leave plenty of space between you and the vehicle ahead.*]

00:00:54 - 00:00:58

[Animation: *The CAA symbol appears in the centre of the screen surrounded by text.*]
